

Software Engineer Apprenticeship

SalesAgility writes and maintains the world's leading open source Customer Relationship Management (CRM) application - the award-winning **SuiteCRM**. Our customer list includes some of the world's largest brands. We punch above our weight on a global basis. We're currently working on projects in Mexico, USA, Belgium, Switzerland, Norway and the UK.

We have a fantastic opportunity for a **Software Development Apprentice** to join a well established and rapidly growing business. **SalesAgility** has seen significant growth in the past 12 months and we are hiring to expand our teams now. Working within a multi-disciplined team, this apprenticeship will focus on the design, delivery and ongoing support of user focused solutions.

We are looking for candidates aged 16-19 who **LOVE TO CODE!**

We are looking for individuals with the right Aptitude and Attitude.

You will be supported through a Modern Apprenticeship in IT. You will have the opportunity to attend external training courses to expand your knowledge. You will be someone who has strong team working abilities. You can demonstrate skills and experience within software development, whether this is from school, or if you have been learning new code in your spare time.

You will become part of a Team who LOVE TO CODE!

Desirable Skills

- ⑩ Object Orientated Programming, Preferably in PHP
- ⑩ Basic Web Development Skills in HTML / JavaScript
- ⑩ SQL (MySQL & MSSQL)
- ⑩ Working with Version control e.g Git
- ⑩ **MUST LOVE TO CODE!**

If you are the perfect person for the above opportunity then apply today. We look forward to meeting You!

To apply please send your cover letter and CV to jenni.mcdonald@salesagility.com
