

## **SSE Apprenticeship Programmes – 2015** **Circa £9,324 with yearly increase and company benefits**

Thinking about life after school or perhaps a change in career? Maybe you enjoy fixing things? Maybe you prefer being outdoors and doing hands-on practical work? Or perhaps you are looking for an opportunity to learn a new skill? Dependent on your location you can train to become a Lines Person, Cable Joints, Electrical Fitter, Electrical or Mechanical Contractor or an Engineer. Choosing our Apprenticeship Programme will allow you to continue earning whilst you're learning.

Our Apprenticeship Programme offers the chance to learn new skills whilst working towards gaining your qualification. You are supported every step of the way by our Apprentice Programme Team, your SSE colleagues who you'll work with during your on the job training and also by the support you will receive from your college tutors. The majority of our apprentices attend college on a block release arrangement for several weeks at any one time; this will mean you may have to live away from home for short periods of time.

By the end of your three or four year programme you'll have achieved a Modern Apprentice qualification, City & Guilds Technical Certificate and NVQ (or SVQ in Scotland) level 2 and 3. Plus you will have a guaranteed job with SSE on completion with potential for career progression.

You don't need any experience to apply. You just need to have an interest in the work we do at SSE, an appreciation of our core values, particularly safety and the desire to do well. To meet the college requirements you'll need a minimum of 4 GCSEs (grade C or above or a minimum of a grade 4 / 5 Nationals in Scotland) to include Maths, English and a Science or Craft subject. Successful applicants will be asked to supply copies of certificates.

For more information about the Apprenticeship Programme please visit [www.sse.com/career/apprentices](http://www.sse.com/career/apprentices)

The recruitment process for this programme involves completing an on-line application form and if successful, we'll ask you to take some further assessments and meet with us at your local depot between January and June 2015.

**If you are offered a role with SSE your Apprenticeship will begin anytime from the middle of August 2015. Successful candidates will be subject to the Company's verification and vetting process which includes a basic criminal record check.**
