Dear Parents/Carers,

As part of a school run Employability & Enterprise course, a group of secondary pupils, working alongside Franny McGrath, have arranged an inflatable event with various stalls, candy floss and tombola. The event will start from 9am on Thursday 21st February, running until 3:30pm.

The event will be held in the assembly hall of the school building, and will involve us having various inflatables, stalls, tombola, home baking and music. This event will be open to the school, both primary and secondary, alongside the local community. We are hoping pupils will be able to bring along a small amount of money to support this event and the local Breathe Project.

We have taken on board suggestions from Mrs Marshall, and believe we can make this a worthwhile event for all by offering each primary pupil free entry. To access the inflatables, we will ask for a small donation from anyone who can manage this. We will also charge a small fee for extra shots, refreshments and stall items.

Any queries, please do not hesitate to contact myself using the details below.
