

Nursery news

Team Building

Some of the nursery pupils have been busy building their own house out of crates and tarps. They are developing communication skills and turn taking and showing great imagination.

Fine Motor

There has been lots of fine motor skills development happening this week. We have been colouring and cutting out Christmas stars for decorating our Christmas tree. We have also been talking about short and long and how to sort objects into categories.

sgoil-àraich

In between Christmas crafting, this week the sgoil-àraich have been learning about forestry, different uses for wood and the process of making paper, after the children started using the duplo to make "axes for cutting down trees". We've been looking at different trees around the campus and learning about old and young trees and have been practising our counting to work out their age.

Other Information

We are having our Nursery Christmas party on Tuesday 21st December so children can come dressed in their party clothes.

Next week we finish for the Christmas term on Wednesday 22nd at 12 pm.
