

# Nursery news

## Gross Motor Skills

The nursery have been developing their Gross motor skills by using a range of materials. They have built towers from cardboard boxes and designed and made their own obstacle course demonstrating communication skills and teamwork.

## Other Information

If anyone can still not access their Child's SeeSaw then please let a member of the nursery staff know.

## Play in Pedagogy

There have been lots of fun experiences on offer this to week to continue supporting our curiosity approach in everyday play. The children made some wonderful creations in their messy kitchen using real food, experiencing a range of textures and smells. They have also been learning how to be safe with real tools by hammering nails into wood.
