

# Nursery news

## Play in Pedagogy

This week in nursery we have been experimenting with different materials. The children have designed and made their own creations of dresses, dolls clothes and pillows to name just a few.

## Outdoor Play

We are enjoying lots of outdoor play. The children used water and scoops to build a river in the garden. They showed great team work and communication and enjoyed the muddy puddles!

## Sgoil-àraich

The sgoil-araich boys found a dead bee in the playground which has sparked a lot of learning this week. We identified it as a tree bumblebee and then went on a walk to spot different types of bees – we recorded 3 different types; honeybees, white tailed bumblebees and a red tailed bumblebee.

## Other Information

Can children please bring in a labelled bottle of sun cream and a sunhat in their bags please.
