

Nursery news

Making our birthday display

To go alongside our calendar that we do every day the children have been making a birthday board. We have learnt about all the different months, wrote out our names and birthday month and cut out balloons for the wall. The children have had lots of good discussions learning about when their friends birthdays are. Here are some examples of their amazing writing.

Fine motor skills

This week we have been practicing our fine motor skills through water play activities. We used a mix of hand pumps, syringes and tweezers as well as lots of filling and pouring. We added in some fun colours to experiment what colour we could turn the water. If any one has an old hand soap bottles or small plastic bottles such as empty food colouring bottles, the nursery would love to have some more to add to our water play.

Celebrating Achievements

We now have two new displays boards up in nursery to celebrate achievements and promote positive behaviour. The awesome board is for anything a child does that they can feel proud of such as writing their name, making a great model or being a kind friend. These stars will stay up all week and will go home at the end of the week to share at home. Our lunchtime super hero board is to promote positive behaviour at lunch time with table manners, trying new foods and being a good helper.

Other Information

- Can children please come prepared for the weather as we still go outdoors in all weather. A bag with waterproofs and wellies can be left on your child's peg.
- Can we remind parents to please encourage your child to not bring toys from home as this can cause upset if they are lost or broken.
