

Nursery news

Week ending 08/09/23

Under The Sea

For the last few weeks there has been a keen interest in under the sea creatures. We have incorporated this into the learning experiences we have throughout the nursery. This week we have been learning about different creatures we can find under the sea and began creating our own under the sea display.

All About Me

The children have been learning about what makes us all different. They have been using mirrors to identify their characteristics and create own versions of themselves. This has created lots of meaningful conversation about our differences.

Postal Service

We have been busy posting lots of letters and postcards as well as bulky parcels in our post box this week. The children have been working on their fine motor skills and practicing pencil control to write out their own letters. We have also started to make our own post van to make sure all of our mail is delivered on time.

Other Information

Now that we are coming to the fourth week of nursery all the children are much more settled and becoming aware of the nursery routines. To build independence and to create a less busy handover in the morning we would like to ask parents to hand their children over at the nursery door and allow them to come into the nursery themselves. This will allow them to change their own shoes and hang up their bags under the supervision of staff. We would still like to invite parents into the nursery at collection time to catch up with key workers and see what learning is happening throughout.
