In the past we routinely had some composite classes within the English year groups. Due to class sizes this has not been required for a few years. However, currently having small P2 and P3 year groups this has now become necessary. Therefore, there will be a P1/2 and a P2/3 composite class next session. Miss Lewis, Mrs Seward and Mr Barr will plan together and pupils will sometimes work with those from the other class, As with all year groups, teachers teach pupils to progress their individual learning regardless of which year group they are in.

It is important that pupils in composite classes are able to maintain and further develop relationships with their own year groups. This happens in a variety of ways such as sitting in years groups in the dining centre, attending sports workshops and assemblies in year groups and spending time together in playgrounds. Other curricular year group work includes some health and wellbeing lessons and STEM opportunities.

Reduced Class Contact Time throughout the primary will be delivered by the PE department as part of our whole school approach to physical education.

The classes have been structured considering the pupils we currently have on our roll and those confirmed to be joining us next session. This does mean that should we have a number of pupils join us unexpectedly we may need to restructure the classes. In the event of this happening, we will notify you as soon as possible.

To support the transition process there are a number of opportunities taking place this week, including all pupils moving up to work in their new classrooms with their new teachers for part of Thursday morning.

Please do not hesitate to contact me if you would like to discuss this or have any concerns.

Yours sincerely
