Dear Parent/Carer

Primary 7 Transition

It was lovely to see you all at the Faculty Showcase transition evening the other week. Despite the groups feeling quite large the feedback I have had from families has been very positive and I'm delighted that our future S1 pupils are excited about going to Breadalbane Academy next session.

There are still a number of opportunities coming up as part of transition. The next event is:

Global Citizenship Day 2025 – Wednesday 10th December
Our S6 RMPS pupils have been working hard to design an engaging and thought-provoking Global Citizenship Day for our visiting P7 students. Through their RMPS lessons, they've developed a range of exciting activities focused on Human Rights and Global Citizenship.

This special event will give P7 pupils the opportunity to:

- Participate in team-building exercises that promote collaboration and empathy.
- Solve challenges in escape rooms designed around global issues.
- Explore outdoor learning experiences that connect them with nature and community.
- Reflect on their own place in the world, encouraging personal growth and global awareness.

We are very proud of our S6 students for taking the lead in creating such a dynamic and inclusive day. It promises to be a memorable experience for all involved.

After Christmas all pupils in our LMG (catchment area) will be invited to the school to engage in some practical cooking activities with Miss Campbell (PT Home Economics) and her team. This is typically about an hour each time they come and is during the school day. We also have our partnership day in school where pupils engage in a series of activities immediately before the residential trip to Comrie Croft. This totals 3 days from the 20th - 22nd May.

On June 11th and 12th all P7 pupils across PKC will have a two-day visit to their catchment schools. For our young people this is a chance to follow their new timetables and meet their teachers for the first time in the classroom setting.

Communication will be sent in due course regarding all these events.

Finally, I wanted to highlight the section below from Mr Milne in English and remind you of the great opportunity to engage in some exciting reading.

"It was great to meet so many keen readers at the P7 Open Evening this week. I was so impressed by the range of reading the students had already covered and their enthusiasm for books. The English Department are pouring through the titles the P7s challenged us to read by the time they arrive with us in August and we will be working with the library to make sure we don't let you down!" ***Mr Milne (PT English)***

We had our 50 Books to Read Before You Leave Primary School Challenge on display and we have linked it here for your reference. We are looking forward to hearing what you have read and what is on your to be read list when you are next in for transition activities.
