Dear Parent/Carer

Road Safety on School Grounds

This message is being sent following reports of two separate traffic-related safety incidents on Friday, reported by both staff and parents, which have prompted us to remind all families of our expectations.

The safety of our students is always our highest priority, particularly during busy drop-off and pick-up times. We kindly ask all families to support us by taking extra care when driving on school grounds.

Please remember the following important points:

- Drive slowly and carefully at all times within the school grounds.
- Do not park or stop in the bus bay. This area must remain clear to allow school buses to load and unload students safely.
- Be mindful of young people using the pedestrian crossing. Children can be unpredictable, especially during peak times, and may not always anticipate vehicle movements.
- Treat staff and young people with respect at all times. Our staff are present to help keep everyone safe, and respectful communication and behaviour help create a calm and welcoming environment for all.

Your patience, courtesy, and cooperation play a vital role in ensuring our school grounds remain safe and positive for students, families, and staff alike.

Thank you for your ongoing support and understanding.

Yours faithfully

Mrs Lambert
